NEW ROUTE FOR CARS

A LINE FROM CENTRAL RICHMOND
OUT THE BROOK ROAD.

The blockading of Orleans Street—Dividing the Sewer Pump—Street-Car and Other Ordinances.

The Committee on Streets held a long session in the City Engineer's office last night. The business done was chiefly of a routine nature, but affected many differing interests.

The committee decided to first take up the matter of the blockading of Orleans street by the Chesapeake and Ohio railway.

City Engineer Cutshaw stated that the sub-committee appointed to look into this matter had held a conference with the Superintendent of the road, and as a result of that had employed a man to note the actual time during which the street was blocked by shifting trains. This man, Mr. Cannon, and a representative of the road, Mr. Walker, the division superintendent, were both present. Colonel Cutshaw said, and would make statements which would probably throw some light upon the subject.

NECESSARY SHIFTING.

Mr. Walker said that much of the shifting of trains was necessary in order that freight might be taken to and from the railway company's wharves on the James river.

Mr. Curtis asked if the company could not build a side track to the wharves, which would obviate the necessity of crossing Orleans street.

Mr. Walker replied that to build such a track would necessitate heavy grading, and would besides involve the expenditure of a very large sum in the condemnation of land, etc.

After further discussion Mr. Curtis moved that the matter be referred to the ward committee (Messrs. J. W. Curtis and W. H. Curtis) and the City Engineer, with instructions to look further into the matter and report at the regular semi-monthly meeting of the committee.

This motion was carried, and the matter lies over until the next meeting.

A petition signed by several citizens asking for a sewer on Buchanan street between Seventeenth and Accommodated streets was read and referred to the City Engineer.

ORDINANCES ADOPTED.

City Attorney C. V. Meredith presented several ordinances for the consideration of the committee.

One of these ordinances allowed an extension of sixty days to the Southern Land and Improvement Company in reference to the laying of their tracks on North Seventh street.

Another provided for the condemnation of the land necessary to open North First street, the approach to the Washington bridge, constructed by Messrs. Barton & Lamb.

Still another granted permission to Messrs. Barton & Lamb to construct a wooden viaduct or bridge twenty-five feet wide across Bacon's Quarter branch.

The ordinance provided that the viaduct shall be within the right-of-way of the city, and that it shall become the property of the city.

The ordinance was adopted by the committee and will be recommended to the Council.

NEW STREET-CAR LINE.

A petition was received from Edward H. Bissell and associates asking permission to build a double-track electric railway—overhead wire or other system. The route defined in the petition is either from the city limits on Brook avenue south to Broad, east on Broad to Seventh, south on Seventh to Main, from Main to Fourteenth, or from the city limits south on Brook avenue to Marshall, east on Marshall to Seventh, south on Seventh to Cary, east on Cary to Tenth, north on Tenth to Main. The petition also asks for the privilege of erecting poles on said streets for carrying the wires.

A letter was read from Mr. Bissell, asking that action be postponed on this petition until November 15th, which was done.

A petition was read from students of Richmond College asking for a similar payment on Bove street from Grace to Broad. The City Engineer was ordered to construct the pavement as ordered.

STREET-CAR SERVICE, ETC.

The resolution referred to the committee from the Board of Aldermen requiring that a report be made as to what safeguards and conveniences should be required on the lines of the several street-car companies and what schedules and regulations be recommended for the running of cars was next taken up.

On motion of Mr. Stratton this matter was referred to the proper sub-committee.

The much-talked-of matter of whether the cars shall stop in the centre of squares or not was brought up in the shape of a referred resolution from the Board of Aldermen. It was referred to the proper sub-committee.

A number of resolutions from private parties asking for pavements, etc., was read and referred to the ward committee.

A petition was read from Councilman Houston asking permission to erect a building on certain property. The petition was promptly granted.

The Chief of Police was instructed to enforce the "cow ordinance."

A resolution from the Clay-Ward section of the committee, appropriating about \$8,000 for sewers in that ward, came before the committee. It brought forth a resolution from Mr. W. C. Marshall, Ward, providing that the \$8,000 appropriated to the sewer fund by the Council be divided equally among the wards.

Mr. H. L. Carter, of Clay Ward, opposed this resolution, thinking that rowdy wards like Marshall and Clay should be given larger appropriations than old wards like Madison and Monroe.

Colonel Cutshaw's opinion was asked for. He said that he thought the money should be appropriated equally as all of the wards had sewer facilities that would use the full proportion of the \$8,000.

The resolution distributing the money equally among the wards was then adopted.

Ward Improvements. Chairman Capers called on the different wards for suggestions and resolutions, and a number of resolutions were recommended and adopted by the committee. These improvements were chiefly in the way of cinder-pavings and graveling, and other things that can be done by the city force of laborers and carters.

The committee before adjournment ordered the payment of the hands and carts and several bills for sewers and payments—amounting in total to a little more than \$4,000.

The session of the committee was remarkable for the promptness and quickness with which business was transacted—a very large amount of routine being cleared up.

The Democratic members of the committee had a full swing last night. Mr. Eaten and J. W. White (colored), the Jackson-Ward representatives, leaving the evening session, the Republican members were left to the Republican pow-wow at Harris' Hall.

An adjournment was reached at 10:40.

Phillips, J. C. Dickerson, T. Wiley Davis, William M. Turpin, E. D. Starke, and James H. Capers, W. F. Fox (Superintendent), and G. P. Raley, Clerk, etc.

NEARLY ONE HUNDRED.

Miss Rebecca Farmer, of Chesterfield, Ninety-Three Years Old.

The Dispatch has never had much faith in centenarians, and has not as yet been convinced that one lives in Virginia, but there is a reliable report of a woman, who is said to be nearly one hundred years old, who lives in a small town in the State.

Miss Rebecca Farmer, whose home is not far from the River road leading from Petersburg to Clover Hill, and near Extra Mills on the Appomattox river, is said by reliable persons, well acquainted with the family, to have been born on the 27th day of October, 1797, and was therefore ninety-three years old yesterday.

She has never married and lives on the farm with her nephew, Mr. John Mail, who is also single and himself quite advanced in years.

Mr. Fox says: "By comparison with the corresponding month last year you will find that our total enrollment increased 219, our monthly enrollment increased 120, and our percentage of attendance 1.2 to 10 per cent. The schools opened well and are working satisfactorily. There has been considerable sickness in the schools for the past two or three weeks, and this has interfered with a good deal with the attendance."

The Superintendent says that the night schools were opened at the Elba, Springfield, and Nicholson buildings on Thursday, October 2, 1890. The school at Elba is taught by Mrs. M. D. Michaels and Miss Mabel E. Crowe; the school at Springfield by F. Morrisette, principal, Misses Irene Valentine, Helen Hall, and Mattie Smith, teachers; the school at Nicholson has Mr. S. O. Perkins, principal and teacher.
